RIOTERS ATTACK FAMOUS WRITER

MOUNTED POLICE IN FIGHT WITH ANTI-SEMITICS

"HAKENKREUSLER" RIOTS AGAINST ZIONIST MEET

Sixty Persons Were Injured in a Clash Between Police and Mobs of Anti-Semitic Rioters — Intimidation of Delegates the Object.

Vienna.—Anti-Semitic mobs attempted to intimidate the Zionist congress delegates here when six thousand Viennese police were unable to prevent street demonstrations and wild rioting by the so-called "Hakenkreusler," anti-Semitic Nationalistic youth and other similar organizations. Police President Schober forbade the planned demonstrations, but in spite of the prohibition several thousand rioters gathered to invade the city. They surrounded the hotels where delegates were housed and shouted and shrieked their imprecations.

Large police reserves were called out and all hotels surrounded with cordons of mounted and foot police, who were forced to attack the rioters with sabers.

Lady Drummond Hay, famous English writer, is also reported to have been attacked in a taxicab and hit on the head with a stone.

At about 11 o'clock in the evening the police gained control and the mobs began to disperse.

DIRIGIBLE SQUADRONS PLANNED BY NAVY

New York.—Creation of a lighter-than-air squadron of the United States navy within a short time was disclosed by Captain Walter R. Gherardi, aviation aide to the secretary of the navy and former commander of the aircraft squadrons of the scouting fleet.

Captain Gherardi declared the navy is now in possession of plans for dirigibles considerably larger than the Los Angeles and comprising special offensive and defensive attributes.

The first line ships of the lighter-than-air squadron will at first be the military dirigible Shenandoah and the commercial, or transport dirigible, with a lesser company of naval bags and balloons, all grouped under one command. To this organization all new dirigibles will be added and given places in the lines.

Armament for newer dirigibles already is in process of planning and will include rapid firing guns mounted in cysts built into the structure of the ships, with space enough for the small operating crews. In battle each dirigible is expected to be defended by airplanes in a manner very similar to the defense of battleships by destroyers. Each dirigible, furthermore, will carry complete smoke screen apparatus.

Trade With Mexico Increases

Washington.—The more than $15,000,000 increase in American exports to Mexico in 1924 over 1923 represented heavier purchase of a variety of goods including fuel and lubricating oil, distillate, gasoline, automobiles and tires, the Mexican embassy pointed out in a trade analysis made public. Mexican imports from this country last year were $135,076,073 (American money). Substantial increases were made in imports of dry goods, notions, knit goods, hats, drugs, chemicals, glass, porcelain and chinaware, while minor advances were recorded in purchases of prepared food products, wood pulp, paper products, malt, hops, crates, barrels, lumber and mine supplies. The embassy's analysis declared the expanded buying due to increased industrial activity, larger use of automobiles, heavier export of certain products and improved purchasing power of the population because of stable conditions.

New Shanghai Strike

Shanghai.—Twenty-two hundred out of four thousand postal employees walked out recently, demanding increases in pay and shorter working hours. The strikers attacked the Chinese constable guarding the postoffice and administered a beating. The constable fired upon the men, wounding one. Deliveries have been suspended.

U. S. Soldier Kills Mexican

San Antonio, Texas.—As the result of a pistol duel Private Nell, service battery, Fifteenth field artillery, lies in Fort Sam Houston general hospital with a bullet in his right shoulder, while Deputy Sheriff Tony Diaz and other officers are seeking the body of a Mexican whom Nell shot.

PROPOSE BIG CUT IN FEDERAL TAX

COMMITTEE TO GO INTO SESSION OCTOBER 19

WILL TRY TO REDUCE U. S. TAXES $4,000,000,000

The Board Plans to Prepare Bill in Time for Next Session of Congress in December—Coolidge in Favor of Further Reductions.

Washington.—The house ways and means committee has been called into session October 19, when it will immediately begin consideration of a measure to effect $400,000,000 reduction in taxes.

Representative W. A. Oldfield of Arkansas spoke as follows:

"We will hold brief hearings and then get down to the actual writing of the bill. It will be ready for submission to the house on the opening day of the session, December 7. The plan then is to rush it through, certainly in time to become effective in the March 15 returns.

"Our committee can do more work with congress out of session than if the house were meeting we had to interrupt hearings or executive sessions to answer roll calls or participate in other legislative business.

"There will be no partisanship on the part of the Democrats. President Coolidge has said he is for proportionate reductions all down the line. We are for that program. We have favored it from the beginning.

"What we will continue to oppose is any greater reductions for one class than for another or shifting of the burden from the shoulders of one group to another."

COOLIDGE WILL SETTLE BELGIUM DEBT CONTROVERSY

Washington.—The debt negotiations between the United States and Belgium were suspended pending a conference to be held between President Coolidge and Secretary Mellon and Senator Smoot, representing the American debt commission.

The American commissioners desire to lay the whole situation before Coolidge prior to a resumption of the discussions with the Belgian commissioners. Belgium's debt of $480,000,000 is relatively small, but the effect upon other debtors who owe America much larger sums is expected to be vital. Belgium cannot get further credits in the United States unless she settles her debts. She is disposed to make a settlement and is asking for leniency in terms.

Coolidge Favors Air Development

Swampscott, Mass.—President Coolidge is most anxious that the federal government do everything in its power to further the development of commercial aviation, it was stated in his behalf. He favors the employment of the naval dirigible Los Angeles in promoting this new avenue of transportation. The presidential view on commercial aviation was given in connection with the recent proposal made by a group of financiers to take over the Los Angeles and place it in transcontinental transportation. Secretary of Commerce Hoover and Secretary of the Navy Wilbur will consider this proposal and report to Coolidge.

Financier's Wife Dies

New York.—Mrs. J. P. Morgan, wife of the financier, died at her Long Island home. Death was due to cardiac collapse, an announcement by the Morgan firm stated. For two months Mrs. Morgan had been ill with sleeping sickness. Several weeks ago relatives and friends regarded her condition as serious. Mrs. Morgan became seriously ill June 14. She was married to the financier in 1890. She was formerly Jane Norton Crewe.

Seek Pardon for Ex-Governor

Washington.—Attorney General Sargent has been saked by an Indiana delegation to recommend a pardon for Warren T. McCray, former governor of Indiana, who has served about fifteen months of a 10-year sentence in the Atlanta penitentiary, imposed after his conviction on a charge of using the mails to defraud.

Germany Requests Return

Washington.—The German ambassador, Baron Ago von Maltzan, has delivered a note to the State department asking that negotiations begin immediately for return of $350,000,000 worth of German property sequestrated by this government during the war, according to information received.

Bar Harbor Inn Burned

Bar Harbor, Maine.—The Mount Desert inn, oldest hotel in Bar Harbor, was destroyed by fire. All guests escaped, but many valuables were lost.

Golden State
News of Interest to All

Berkeley city trustees fixed the tax rate for the new fiscal year at $1.60 per $100 assessed valuation.

The municipal sewer system at Williams, Colusa county, provided for in a bond issue voted a year ago, is completed and now in operation.

Fines totaling $1,141 were collected by Police Judge F. J. Conner of Turlock during July, according to his monthly report filed with the board of trustees.

The California state tennis championships will be held at the Berkeley Tennis club September 5 to 13. This was decided at a meeting of the executive committee.

A 28 per cent increase in business has been shown by the Visalia postoffice as of July 1925 over the same month in 1924, according to Postmaster A. M. Becker.

The supervisors have agreed to fix Shasta county's tax rate at $2.50 inside and $2.90 outside of cities. This is a reduction of 10 cents from the rates of last year.

After working steadily for two and a half hours members of the Fresno fire department rescue squad revived a woman by artificial respiration after she had been pronounced dead.

The contract for paving with concrete the Petaluma-Valley Ford highway of approximately three miles has been awarded, also three miles of concrete between Vineburg and the Napa county line.

Three little children were left motherless when two women ended their own lives in Los Angeles recently, one swallowing poison, the other resorting to illuminating gas as the agent of death.

Plans for the new high school at Colusa, to cost $200,000, have been approved by the board of trustees. Bids for the work will be opened August 17 at the office of the secretary of the board, L. K. Jordan.

Pioneers of California and friends are congratulating William Maxwell Harden of Sonoma upon his one hundred and sixth birthday. He was born in Georgia, August 10, 1819, and arrived in San Francisco in 1849.

The record catch of salmon at Ukiah was made by Noyo offshore fishermen when ten tons were landed at the wharves of the International Fish and Packing company. The fish, king salmon, ranged up to about sixty pounds.

Alan Herrington, Stanford star, won the southern California tennis singles championship by defeating Craig Biddle, former national clay court champion, 6-3, 6-2, 6-3, in the feature match of the title tourney at Los Angeles Tennis club.

Chief of Police Bernard McShane of the Sacramento police department, for four years head of that branch of law enforcement, has tendered his resignation to City Manager H. C. Bottorff. Inspector of Police T. N. Koening is McShane's successor.

Woodland's baseball club clouted its way to the Sacramento Valley league championship by winning over Chico, 8 to 5. The boys slugged in the same manner that they have done all season, finding Joiner, the Chico hurler, for eighteen bingles.

Traffic over the connecting highway between the I street bridge at Sacramento and the San Francisco paved road was tied up when fire of unknown origin destroyed the woodwork of the subway under the tracks of the Sacramento-Northern electric line.

All records for school attendance in Oakland will be broken when the public school opens for the fall semester on August 24. Approximately 54,000 students will attend the public institutions during the coming year. Last year the school attendance was 51,000.

An 8,000,000-gallon reservoir will soon be in service at Santa Barbara, replacing the 40,000,000-gallon Sheffield reservoir which was destroyed June 29. The city also is going ahead with a new reservoir on the mesa, which will store water sufficient to meet emergency needs for weeks.

California's public institutions had a total of 20,256 inmates during the second quarter of 1925, according to the quarterly census bulletin issued by the department of institutions. This is an increase of 348 over the preceding quarter. Of the number confined, 13,806 were males and 6,450 females.

Plunging several feet from the municipal water tower at Clovis, Fresno county, S. F. Phillips, painter of Oakland, received injuries from which he may die. He was painting the tower when he fell from the scaffolding and dropped across an iron bar. Physicians declare he received concussion of the brain, internal injuries and compound fractures of the arm.

COUNTY MOURNS PASSING OF JOHN ROLL

John Roll, veteran county supervisor and chief support and friend of Campbell district, passed away Sunday morning at the county hospital after an illness of a month. His many friends were sorely grieved at the news which was by no means surprising to those who knew of his critical condition.

Mr. Roll was in the midst of his eighth consecutive four-year term as supervisor and was the board's president for eight years.

He was the father of the good roads movement in this county and in this great work has left a constantly growing monument to his memory. He made the county business his life work and a more interested official could not be found.

His interest in the growth and development of the county hospital and infirmary has made that institution one of the finest in the state.

The high regard for Mr R.oll has been expressed daily on our streets and his passing is a great loss to the county as well as his own district, No. 4.

The funeral services were conducted by the Masonic Lodge of Santa Clara assisted by the Knights Templar of which he was a member. Services were held from the I. O. O. F. hall and at the cemetery. Acting and honorary pall bearers were members of the county official family who had served with Mr. Roll in the year's past.

Judge P. F. Gosbey paid a most touching tribute to the life and memory of this faithful servant.

OAKLAND PLAYERS COMING

Wilbur S. Tupper will bring his Boulevard Players to Campbell again this fall. He and his troupe of amateur players were so well pleased with the reception they received here a year ago that they have promised a return engagement. Their performance will be staged in the Grammar School auditorium Friday evening, October 8.

There are few residents of Campbell that will have forgotten Mr. Tupper's stirring drama, "At the Door", given last year. He has promised another of his own compositions this year, "Harp and Sword". This is Mr. Tupper's latest play, and he believes it to be his best.

Annoncement as to the rest of the program will appear in later issues of the "Press". The program will be conducted as a community affair sponsored by both Methodist and Congregational churches. Mr. Tupper's programs always represent what drama ought to be—thrilling entertainment combined with wholesome moral tone and inspiration to better things.

Milwaukeean Democratic Chief

Milwaukee.—William George Bruce, Milwaukee, was named the Democratic candidate for the place left vacant by the death of United States Senator Robert M. La Follette at the Democratic state convention here.

Drastic Law in Georgia

Atlanta, Ga.—Burglary and highway robbery will be made capital offenses, punishable by electrocution, if a bill introduced in the senate of the Georgia legislature becomes a law. A similar law is in effect in South Carolina.

San Leandro will stage its first annual dahlia show on August 29 with more than one hundred entries. Dr. Luther Micahel is in charge.

The Capital City Motorcycle club this year will stage their second annual hill climbing contest in the Sutter buttes on Sunday, August 30.

Prediction that the population of California will touch the seven million mark by 1930 was made in San Francisco by R. E. N. Cowie, president of the American Railway Express company, who arrived from Los Angeles aboard his private car. He is making his annual tour of inspection.

The picturesque Mountain House Inn, ten miles west of Tracy on the State highway, at the easterly entrance to the Altamont pass, has been destroyed by fire. A. W. Howard, the proprietor, believes that the blaze was started by the explosion of an oil heater.

Calif. Diamond Jubilee, Sept 9th

Old Spain will lay siege to the capital of American California on September 5.

A horde of dons and donas of San Francisco will invade Sacramento on that day and run riot over the state fair grounds, assist in the opening of the 1925 state fair, and invite northern California to the Diamond Jubilee of the state which will open in San Francisco the same day.

Plans for an excursion of 300 costumed men and women to Sacramento were made yesterday at a meeting of the state fair participation committee of the Diamond Jubilee, under the chairmanship of Samuel T. Breyer.

Representatives of all the principal social, civic and service organizations will join the delegation, which, headed by Mayor James Rolph, Jr., will depart for Sacramento at 8 a. m., September 5. The return trip will be made Saturday night, in time for the delegates to attend the opening grand ball of the jubilee at the civic auditorium.

Reservations for the excursion may be made at jubilee headquarters, 445 Phelan building. Men and women not allied with any of the clubs sending representatives are invited to make the trip.

POPULAR CANDIDATE

Considerable interest is being manifest in the Fourth supervisoral district as to the appointment of a successor to the late John Roll for the unexpired portion of the term. Petitions to Gov. Friend Richardson, who has the power to appoint the successor, are being circulated thruout the district asking the appointment of John H. Roll to succeed his father.

Mr. Roll has had considerable experience in the work done by his father, acting as right hand man for some time especially with the road work of the district, and this knowledge may have its weight with the Governor. The petitions are being quite generally signed by the many friends and supporters of the former supervisor.

ENVIALBE RECORD

The Mercury Heraid of Tuesday contains a photograph of Bruce Stone and his radio outfit which he constructed. There is also a column write-up of his operations and the announcement that he has the honor of having caried on the longest distance communication with the navy-MacMillan expedition in the Artic regions.

Bruce is a student of the C. U. H. S., living on Payne and Phelps avenue and has indulged in radio merely as an amusement. He has constructed six sets in all as he is always improving his apparatus. His station is recognized by the American Radio Relief League in whose news bulletin an account of his success appeared.

SENATOR YOUNG VISITS CAMPBELL

Senator Sanborn Young was in Campbell Tuesday introducing Mr. Martin of the Walnut Growers Association who is a candidate for the unexpired term of the late John Roll. Mr. Martin has had considerable experience in the business world and would undoubtedly make a good supervisor if appointed by Gov. Richardson.

Election Riots Serious

Madras, India.—Thirty persons were injured, some of them seriously, when a gang of hooligans attacked a procession of nationalist supporters on the eve of the municipal elections recently. Seven were arrested.

Fliers Die in Flames

Rome.—Two army aviators, Lieutenant Sabato and his mechanician, were killed when their machine crashed and burst into flames on the beach at Ostia, near Rome. Both bodies were badly charred.

BAUGH-BOHNETT WEDDING SOLEMNIZED

Cards are out announcing the marriage of Merlin Bohnett and Janice Baugh, reading Monday, August 17, at San Jose, but the young people decidedly surprised their relatives as well as friends by informing them Sunday after a family dinner that the ceremony was to take place that afternoon.

Rev. F. W. Morrison, of San Jose, by whom the wedding was to have been performed the following day, had been summoned, and in the presence of the immediate relatives read a beautiful marriage service.

The bride was attractively gowned in one of the new shades of brown satin and carried a bouquet of Cecil Bruener roses and lilies of the valley. She was attended by her twin sister, Mrs. Lillingston and the groom by Mr. Clive Baugh.

They left later by auto for Gold Lake, in the northern part of the state for their honeymoon. Upon their return they will make their home in the attractive bungalow on Winchester Road which Mr. Bohnett has arranged for his bride.

Those present at the dinner Sunday beside the bride and groom and who subsequently witnessed the ceremony were the bride's mother, Mrs. Hattie Baugh and her sisters, Miss Helen Baugh and Mrs. H. E. Lillington, her brothers Elwood, and Clive, with his wife, from Berkeley, her aunt, Mrs. F. A. Turner, of Sacramento, the groom's parents, Mr. and Mrs. Enos Bohnett, of Aromas, and Mr. and Mrs. R. Alison and Miss Lucile Alison. Mr. and Mrs. Elver Bohnett, and Mr. Jos. Bohnett were present for the wedding.

Both of the young people are valued members of the staff of the Campbell Branch of the Mercantile Trust where they have made a wide circle of friends. They are popular socially and Mrs. Bohnett has been the honored guest of several showers and parties recently.

SILVER ANNIVERSARY CELEBRATED

Saturday evening a party of friends motored to the new mountain home of Mr. and Mrs. W. H. Stray at Forest Springs, not far from Ben Lomond and surprised Mrs. Stray, her husband helping to make the arrangements complete.

The occasion was the silver wedding anniversary, and a very pleasant evening was spent in recounting some of the experiences and vicissitudes which the various guests had experienced.

A beautifully decorated cake, and brick ice cream with a pink heart center, were served. The happy couple had received several gifts commemorative of the day and the guests presented them with a pair of dainty silver candlesticks.

The occasion also served as a housewarming for the very pleasant cottage for which Mr. Stray has been chief carpenter.

NEARING CENTURY

Mrs. Mathilda Eddy, mother of Mrs. J. E. Gamo, passed her ninety-eighth birthday on Aug. 12. At the age of 24 she was quite ill and was given up by physicians, but recovered later and at her advanced age, eats and sleeps well, but is bed ridden with paralysis.

In the Press Office window there is a pair of hand cobbled shoes worn by Mrs. Eddy when a year old. Shape and size are entirely at variance with the modern baby shoes.

Born: To Mr. and Mrs. Roy F. Whalley, a daughter, Friday, Aug. 14.

Little Need to Worry Over Tornado Danger

The likelihood of a single house or barn being damaged by a tornado is less than its chance of being destroyed by fire or lightning, even in the districts where tornadoes are most frequent. Official statistics show such a risk, according to Dr. W. J. Humphreys, professor of physics at the United States weather bureau.

Usually a tornado does not damage an area larger than a quarter of a mile in width and thirty miles long, so that great havoc is done only when this swath strikes some populous district. The average number of tornadoes per year in Illinois is about five, while in Kansas, where they are most frequent, it is about six and a half. In other states in the Mississippi valley they occur less frequently. They never occur in, or west of, the Rocky mountains, but at rare intervals they have been recorded as far east as Virginia; and several years ago a mild one occurred within a few miles of Washington.

Economy doesn't hurt business, but business puts a crimp into economy.

The U. S. Government's recent shake-up of the Prohibition enforcement department insures the continued guaranty of life, liberty and the pursuit of bootleggers.

GREAT SOULS RISE ABOVE THE MOB

Another lynching in America! This time it strikes the fair state of Missouri. The papers have been full, and will continue to be full of editorial comment until the echoes of the unfortunate affair have died away. But it is strange that so few writers strike at the real significance of this (thankfully lessening) social ulcer.

We used to think that lynchings were caused by the mere outcroppings of racial feelings in cases of extreme provocation. We are now outgrowing that. Many white men have been lynched. Yellow men, red men and brown men all have met the fury of the mob. It was but yesterday, in historical calculation, that 19 supposed witches were hanged in Massachusetts. The question goes deeper than race. We are beginning to find out the eternal truth that the crowd doesn't think. Men and women, as individuals, think; that is, some of them do. The crowd—the mob—doesn't know how to think rightly, nor will it until the heart is educated along with the head. Reason must be the solvent to emotion.

We can see this trait in group action even in peaceful pursuits. An obscure person gets the boor of a convention; he strikes a high sounding phrase which gets to the emotional before it reaches the reasoning center. Somebody hollers; then another. Before anyone is sanely aware of what is going on, the said obscure person has carried the day. They dominate him for national president of the Order of Hinky Dinks. Then the crowd goes home and, is individuals, wonder why they did it.

A mob is nothing but a mad crowd. Madness is emotion of the wrong kind. Law alone will not prevent mob rule. It is a matter that must go straight to the reason of individuals. Happily, the majority of men and women of the world have risen above the mob. The few who have not will have to be worked upon. The world has done well in harkening back to Emerson for many splendid thoughts, and among them is one golden text that sees to fit our purpose here: "It is easy to live after the world's opinion, it is easy to live after our own; but the great man is he who, in the midst of the crowd, can retain with perfect sweetness the independence of solitude."

EDISON AND EXERCISE

Thomas A. Edison takes little or no physical exercise, and works with his brain from 12 to 15 hours a day. No doctor would recommend living as Edison lives, yet most of the doctors would hesitate in telling Mr. Edison how to live, for he probably would smile and go on with his work. The great inventor probably knows that he is violating the rules of health, but is willing to make the sacrifice for humanity's benefit. It is now known that he chose to remain deaf when assured that a slight operation would restore his hearing to normal. That he might be able to concentrate upon his work with distracting noises shut out, Mr. Edison refused to keep the appointment with the surgeon and went on working. There are sacrifices among the hublest, but one of this character is rare except in the realms of genius.

ROADS AND MORE ROADS

It is not probable that the saturation point in road building ever will be reached. After all the roads are built that are thought needed, the job will be to build more roads and widen the existing ones; then will come the elevated and the subway to meet traffic congestion. Just as there is no stopping point in home building or other necessary projects, there is not likely to be much let up in providing arteries of traffic for the needs of the oncoming populations.

ARE YOU SATISFIED?

A satisfied community is in a mighty bad fix. It is stagnation. A satisfied community and a satisfied people don't stand much chance these days. A city cannot grow ahead of its civic improvements. The improvements must lead the way, the growth will follow. Of this there is no question.

MAKE A FRIEND TODAY

When city people convince the ranchers that they are interested in their welfare, the ranchers confidence is won. It is not how many dollar's worth of business we do each day that counts most, but how many friends we have made, friends that have confidence in us and feel that we will deal fairly with them.

We acknowledge taking this from an ad, but it's good: "Spend your profit with the people who make your profit possible." And we add, save your money from the birds that make your losses profitable.

"Next year I'll take a REAL Vacation"

Maybe you are one of those who have made this pledge, but have not worked out a way to keep it when the time comes.

You may have had a good time this year, but perhaps next season would like to go farther away, or have the money to provide greater enjoyment at a place you have already visited.

Start now, by adding a small amount to your regular Mercantile Savings Account. It's surprizing how easy it is to save more money when you have the proper incentive. When next season comes along you will have enough to go to the places you like and do the things you desire.

Mrs. Marion Duncan Parker is enjoying a two weeks' visit with her parents on Los Gatos road.

Wilbur Howes drove up from Los Angeles Sunday for a visit with his parents on Union Avenue.

Cecil Cutting, upon the advise of Dr. W. I. Merrill, had his tonsils removed last Wednesday by Dr. Jordan.

Mrs. H. E. Lillington and Mrs. F. A. Turner were the honor guests at a luncheon Tuesday given by Mrs. D. H. Cramer.

Miss Lois Gardner was hostess Friday at a luncheon in honor of Miss Janice Baugh, Mrs. H. E. Lillington and Miss Emily Guinn.

The ladies of St. Lucy's Catholic church will hold the second in their series of whist parties Friday evening, August 28, in the community Hall. The proceeds will be applied to the building fund.

Mrs. S. L. Hayes went to Sacramento Monday where she underwent an operation. At last report she was recovering satisfactorily. Her host of friends will hope to see her at home again soon.

Mr. and Mrs. Hayes received word of the arrival of twin daughters at the home of their son, Jesse, in Shanghai, China, on July 14th. The young ladies have been named Margaret Jean and Mary Stuart.

A. E. Caswell and family of Eugene, Ore., who have been visiting the past week at Arroya Grande will return to Campbell Saturday and remain until mid September, the guests of Mr. and Mrs. J. J. Caswell.

Alvi Baldwin is down from Oakland enjoying a visit with his uncle and aunt, Mr. and Mrs. C. E. Whitney and grandma, Mrs. Hamilton Whitney. Incidentally his former school mates are seeing him most of the time.

Frank Rego and Leonard Smith, of the Orchard City Garage force, are spending the week in Monterey county in an attempt to lasso and hog-tie a spike or two. Floyd Gunter is the man at the wheels during their hunt.

H. E. Lillingston will arrive Tuesday evening from Missouri for a short visit at the home of Mrs. Hattie Baugh. He will be accompanied upon his return by Mrs. Lillingston and baby daughter, who have spent the summer here.

Chas. Berry will spend several weeks of his vacation at the Southern Pacific hospital, going there tomorrow for an operation. During his absence his official duties are being very efficiently cared for by L. C. Keely assisted by his wife.

Dr. Emily F. Wells, who has been sick for the past two weeks with the flu, and whose voyage to Hawaii has consequently been postponed, is now on the road to recovery, and has a booking on the Steamer Monoa from San Francisco early in October.

J. A. Williams as urged by the police committee of the Chamber of Commerce is canvassing the close-in section of Campbell with the view of establishing a policing patrol in Campbell for the protection of the people and property against depredations and destruction.

Due to the constant increase of his business, "Col" Gamo has found it necessary to enlarge his store, which will be done soon to facilitate the merchandising of his goods. A new intermittent electric sign will serve as a night reminder of this hustling merchant's desire to serve.

Several of the girls who were with the Camp Fire party at the State Redwood Park returned Sunday. Ruth Townsend had joined the group at the Park for part of their stay. Helen Alison and Mary Maxon returned with Helen Stray to the Stray Cottage at Forest Springs for a few days.

GOV. RICHARDSON AND PARTY AT BIG BASIN

Governor Friend W. Richardson and party of six, on a vacation tour, arrived in the State Redwood park at Big Basin Monday afternoon about 4 o'clock, to remain until yesterday. They motored over from Santa Cruz, where they have been enjoying the sea breezes for a couple of days.

Immediately upon arrival the governor engaged in his favorite pastime—pitching horse shoes. His entrance in the dining room of Redwood Inn at 6 o'clock was the signal for an ovation. After dinner the governor and party were escorted to reserved seats before the big campfire which is a nightly feature of the camp and the usual musical program was given.

At the request of Warden Dool, the governor was introduced and talked informally to the 1500 people gathered about the camp fire, relating a number of humorous incidents concerning his official life.

Descending to more serious vein, he added, "My friends, I consider that you have assigned to me the position of manager of the state of California. I desire to demonstrate to you the way in which this management is being carried on. When I desired to secure a man for the position of state highway engineer, I sent out letters to many expert engineers, asking their opinion as to who should be appointed to the post. The list finally simmered down to 17 names. Again I called in the experts, asking their ideas.

"Robert M. Morton was finally selected. I do not know to this day whether Mr. Morton supported me in the last election; I do not know whether he is Republican or Democrat, but I do know that he is one of the finest engineers in the country.

"You have learned through the papers that Charles H. Speare, San Francisco harbor commissioner, is to go to Los Angeles. He is a man of such caliber and has done such excellent work in San Francisco that he is to receive from the southerly city two and a half times the salary paid him by the state of California.

"I have been fortunate in securing for the state the services of many such men in branches of the state departments at comparatively small salaries."

Governor Richardson created considerable merriment by remarking at the beginning of his talk, that he was going to give them no all-day sucker—referring to the hard candy which each of the 1500 was industriously absorbing. Upon his descent from the platform, a tiny girl slipped forward and shyly presented the chief executive one of the "suckers" which he accepted smilingly while the audience cheered and applauded.

HOW TO SUCCEED AS A WIFE.

The clerk of the New York marriage license bureau gives each applicant for a license a list of suggestions on how to succeed as a wife or husband. Here are some of the commandments for wives.

"Don't nag, it gives men the earache.

"Don't gossip about the neighbors' troubles.

"Don't tell company how your husband snores.

"Don't get millinery mania or clothesfobia.

"Don't park your relatives within twenty feet of your domestic councils.

"Don't turn the hose on him if his work interferes with your dinner, occasionally.

"Don't hold your husband too long on the 'phone when he is in the midst of a business interview.

"Don't call his attention to a pretty hat in the next pew while the sermon is in progress.

CAMEL-HUMPS

Are statistics in round figures always square?

A familiar summer expression: "Didja campout allthway?"

Stay sober. Even a full moon gets down to its last quarter.

There is no immigration quota on the dollars Europe owes us.

Why not put a little of the religion they're trying to keep out of politics into the politicians?

One would think those indicted furniture manufacturers would be ashamed to look their own mirrors in the face.

GREATEST SHOW ON EARTH HERE SOON

Bringing more than eight hundred of the world's premier men and women stars, three hundred and fifty performing horses and many big, new foreign features, the Ringling Brothers and Barnum & Bailey circus is to give performances at San Jose September 8.

Here is a partial list of its wonders: One hundred railroad cars. Five rings in place of the three heretofore used. Six arenic stages. One hundred and fifty trained horses presented at one time in a magnificecnt "Equine Ballet." High-wire acts introducing no less than nine of the world's most famous dancing, somersaulting and bounding-wire artists in a single display. Five herds of trained elephants. A troupe of twenty leaping and long-distance jumping horses, and many other imposing acts and features.

Among the host of noted performers are the Australian Colleano, the Spanish wizard, Mijares, Maximo, Naidia Miller and Berta Seeson, who head the congress of high-wire artists. May Wirth, the George Hannaford troupe, "Phil, the marvel," the Ernestos and the Rieffenach sisters are among the seventy bare-back riding champions. Lillian Leitzel, Mille. Fillis, the Clarkonian-Nelson troupe, and Siegrist-Silbons and the Rooneys lead the aerial displays.

Entire families of famous gymnasts are being presented. These include the Colleano family of eleven remarkable athletes, the Nelson family, world's greatest acrobats and tumblers, the Picchianis troupe who have come from Italy to astound with their gymnic feats, the Medinis who perform upon ladders as high as the tent-top, the Junetro troupe, acrobats who wear tall stilts, and a host of others.

The addition of two more circus rings has been effected by setting circular curbs on two of the elevated stages. This makes it possible for Ringling Brothers to present for the first time in history, five separate companies of performing horses at one time.

Gorgeous pageants, a hundred clowns and a menagerie of over one thousand rare animals are a part of what is the biggest and most amazing circus ever on tour in America.

What is a FUSE?

A FUSE is a safety device—a small strip of fusible metal inserted in a circuit.

When there is a short circuit, or the current increases for other reasons beyond a safe amount, the fusible metal in the fuse melts and breaks the circuit.

The fuse in this way prevents damage from over heated wires.

POSTAL DEFICIT THIS YEAR IS UNUSUALLY LARGE

A cash deficit of $37,149,000 for the fiscal year of 1925 which closed last June 30 was announced by the post-office department after a preliminary compilation of receipts and expenditures made at the request of Postmaster General New.

The department ordinarily returns a deficit, but officials have been trying for several years to effect economies which would make the postal service self-supporting. They regard this year's figures as a step backward, since last year's deficit was only $24,000,000.

Preliminary figures for the year, which are subject to some readjustments, place estimated receipts at $600,600,000 and obligations and expenditures at $649,371,000, leaving an operating deficit of $48,771,000 from which is deducted $11,622,000 for outstanding liabilities and for civil service retirement transfer.

The cash deficit closely approaches the estimates made by Postmaster General New several weeks ago when he placed it around $40,000,000.

"The amount of the deficit for the fiscal year of 1925," a statement by the department said, "is attributed, not entirely but to a great extent, to the postal pay bill, which, enacted this spring, was made retroactive to January 1 so that the department has been paying increased salaries to its army of some 350,000 employees for the last six months of the fiscal year. On the other hand, the increase in postage rates established to meet the raise in salaries, did not become effective until April 15, and was in operation only two and a half months of the fiscal year."

Total postage revenues for the fiscal year of 1924 amount to $572,948,788 so that the receipts for 1925 were $27,650,222, or 4.82 per cent more. In 1924 an increase of $40,120,853 or 7.53 per cent over 1923 was shown.

The operating deficit for 1923 was $37,707,866 while for 1921 it was $80,106,769.

AUTO OWNERS WARNED OF USED CAR SWINDLE SCHEME

Automobile owners again are warned by the National Automobile Dealers' Association against a used car swindle that for the third time was operated successfully in which 400 automobile owners suffered losses ranging from $100 to $2000.

All owners should carefully investigate before they quietly turn their motor cars over to some "slickers" who will depart between two suns.

A successful swindle was recently uncovered in Los Angeles in which hundreds of automobile owners lost thousands of dollars. A similar scheme has been operated in New York. This third successful swindle has just been uncovered in Pittsburg.

The swindles were all operated on the same scheme. The swindler went to a bank, deposited thousands in capital, rented a vacant lot and opened up for used car sales. Automobile owners were asked to bring in their old cars, leave them with the used car dealer, in return for which he gave his note for the value of the car.

When questioned he gave the bank as reference and the car owners learning of the large deposit went away satisfied that their cars were safe. Suddenly the used car agency was closed up, the cars had been sold, the operator had flown, and the bank deposits with him. The swindler was never apprehended, few of the car owners ever recovered their property and none recovered their money.

VERY RARE

Beggar—Gimme a dime, mister.

Mr. Krusty—Why don't you go to work?

Beggar—I do work. I'm a collector of rare coins.

Mr. Krusty—A dime isn't a rare coin.

Beggar—It is to me, sir.

American Charity

Though exports of American funds for charitable purposes decreased decidedly during 1924, compared to 1923, they still amount to $55,000,000, the Department of Commerce has estimated. Of this amount $25,000,000 was for direct charitable and relief work and $30,000,000 for religious and missionary purposes. The total, though nearly $20,000,000 less than the previous year, is greater than that expended by any other country in the world.

Golden State
News of Interest to All

Tupman, mushroom oil town near Bakersfield, is once more in a furore of excitement over the activities of C. C. Grace, former postmaster. Grace is now alleged to have taken possession of Tupman's water supply, consisting of a pumping plant and offices. J. W. Odell, who represents the asserted legal owners of the property, has filed charges against Grace in local courts in an effort to regain the confiscated possessions. In the meantime Grace is ruler of the water plant, refusing to allow any one on the property and supervising the distribution of water to the populace of the town.

Oil field operations in California reported to State Oil and Gas Supervisor R. D. Bush during the week ending August 1, 1925, show 27 new wells started, as compared with 17 during the previous week. Of the 27 notices to drill filed this week, eight were for wells in the Inglewood field, two in the Torrance field, two in the Long Beach field, one in the Rosecrans friend, one in the Newport field, one in the Bardsdale field, two in the Conejo field, one in the Cat canyon field, eight in the fields of Kern county and one in Tulare county. The total new wells this year is 850, as compared with 927 at the same date last year.

Tulare county boosters, representall sections, have unanimously agreed to support a trans-Sierra highway connecting the valley cities with Lone Pine, Inyo county, by way of the southern end of the Sequoia national park, at present inaccessible by road, Kern river canyon and Mt. Whitney. The proposed road, for which state and federal aid will be sought, will, it is estimated, cost half a million dollars and will connect with the Midland trail at Lone Pine, that county building to the top of the divide from the Inyo side.

Mud, splinters and dead chickens were under foot today as the half thousand inhabitants of Rockwood, Imperial valley town, set themselves to the task of bringing order out of the chaos left in the wake of a recent tornado. The property damage, estimated at between $125,000 and $175,000, covered the destruction of a grain warehouse and cantaloupe sheds, damage to grocery store that was whisked off its foundation and planted in the mud two hundred yards away, destruction or damage of a dozen homes and the havoc wrought in corn and cotton fields and among telephone and telegraph lines serving the village.

The actual survey for the new mountain automobile highway connecting Sequoia national park with General Grant national park is now under way. Resident Engineer W. M. Austin, who is in charge of all road construction, including the new Generals' highway, sent the crew into the field with instructions to run three preliminary lines. Work will start on the new road, it is believed, early next spring.

Forty-eight separate forest fires were burning in Trinity county as a result of lightning during a period of twenty-four hours. Forest rangers, assisted by hundreds of other men, fought terrifically to prevent the spread of the flames. Five separate fires were started by the same storm near Sims, in Shasta county, and are still burning but under control.

Bursting shells from guns of practicing artillery units on Gigling reservation, five miles from Monterey, started a brush fire which had burned over approximately two hundred acres. Two hundred men from the Presidio of Monterey were rushed to the scene to fight the blaze, after an army plane, observing the artillery shots, carried news of the fire to the presidio. No buildings are endangered.

Mrs. Martha Caroline Johnson, 84, Yolo county pioneer, with extensive holdings near Madison, died at the home of her daughter, Mrs. Fred Thomas. Mrs. Johnson had come to California in 1845 and lived in Yolo county practically all of her life. Besides Mrs. Thomas these children are Mrs. Josie Carruth of Esparto, Mrs. Maybelle Hearn of Porterville and James Archer Johnson.

The estate of Herman Silberstein, formerly of Chico, Butte county, who died in San Francisco July 31, is valued at approximately $400,000 in the will filed. The estate consists of real estate in Butte, Shasta and San Francisco counties valued at $200,000; bonds and cash totaling 178,000 and personal property valued at $10,000. Mrs. Yettel Silberstein is bequeathed the bulk of the estate.

Quartz gold which it is declared will assay at $1,000 a ton has been discovered on Bloomer mountain, a few miles east of Oroville. A ledge eight feet wide with a 3-foot pay chute was unearthed at a depth of 250 feet in the mountain. The property is known as the Joe Young mine, from which $75,000 in gold was taken years ago.

Infantile paralysis quarantine caused the closing of the Star school near Windsor, Sonoma county, according to word received at the superintendent of schools' office in Santa Rosa.

Plans are being prepared for the erection of an office building at Burlingame. It will be located at Broadway and Capuchino streets, and will cost about $30,000.

Canada's Divorce Output

The parliament of Canada granted 137 divorces to residents of Ontario and Quebec during the present session of parliament, says the Winnipeg Free Press. The senate divorce committee has now concluded its work, having granted five more divorces this session than in the session of 1924. Already eighteen notices of intended application for divorce at the next session of parliament have been made. Of the divorces granted, 127 were in Ontario and 12 in Quebec. Of the petitions heard, 64 were by husbands and 74 by wives.

The Burglar Critic

Mrs. Harry Payne Whitney, the famous sculptor, was talking in her New York studio about a visiting artist whose work had been greatly overpraised.

"The critics," she said, smiling, "haven't as much wisdom as the burglar. A burglar, you know, broke into this man's studio the other night. The room was crowded with his works, huge portraits, landscapes, and what-not, but the burglar only took a bottle of beer."

Reading Circles

Teachers' reading circles are conducted or sponsored by state departments of education in 27 states, and pupils' reading circles in 18 states. Home education circular No. 7 on "Teachers and Pupils' Reading Circles," issued by the Department of the Interior, bureau of education, lists the states promoting such courses and describes the conditions under which they are offered.

MANY EXHIBITS PLANNED FOR CALIFORNIA STATE FAIR

SACRAMENTO—Among the exhibits appearing at the State Fair will be a display of some phases of the work carried on by the California Department of Agriculture designed along entirely different lines from exhibits of previous years. The department is planning a series of panels, each panel exhibiting certain phases of the department's activities.

The work of inspecting ships at the maritime ports for contraband material which might contain injurious insects such as the Mediterranean Fruit Fly, will illustrate the plant quarantine division.

This will be supplemented in another panel by some very beautiful colored photographs and sections of pine trees, showing the white pine blister rusts and how it is affecting the trees in the northern part of the United States and Canada, and clearly explaining why the department is endeavoring to eradicate from California forest areas all of the black currant. The black currant is known to be an alternate host of the blister rust fungus. Another phase of pest control will be exhibited in connection with the United States Bureau of Biological Surevy, showing the work of the pocket gopher. Live gophers will be used in this exhibit by means of a glass box, so that the habits of the animal can be studied at close range. This mount was specially prepared in Washington D. C. and sent to California expressly for the State Fair.

Other attractive panels will display the work of the dairy division in its efforts to improve the quality of butter by improving the sanitary conditions of the dairy. In this way dirt and other foreign materials which cause the quick souring of milk are eliminated and the milk arrives at the creamery in better condition for manufactureing purposes.

The inspection of fruits and vegetables at shipping point will bring out the importance of this valuable service and show how it benefits the producer by giving him a form of insurance against possible delays in transit and against unscrupulous methods at point of destination where he is not in a position to protect himself.

The standardization of meat products will be brought out in a beautiful panel, depicting the movement of livestock from range to range, showing the cattle and sheep being loaded onto trains and from thence to the stockyards and finally ending up with the standard cuts of meat being prepared for the table.

The last panel of the exhibit will include a comprehensive illustration of the work of the United States Bureau of Biological Survey in the control of predatory animals.

"It is our desire," says Director Hecke, "to place a permanent exhibit in the Horticultural Building, which will embody all of the activities of the Department in one painting, and we are working toward this end. The State Fair is attracting larger crowds every year, and I believe that it is the duty of the State Departments to give the citizens of the State an idea, through the exhibit method, of what the State is doing for their protection and development."
